## Comments by Kaspars Kukelis, Chairman of the Management Board, CEO

"I am delighted to report that in the third quarter our operating and financial performance improved substantially, and we are establishing a solid base for future growth. We delivered a positive third quarter, with double digit topline growth. This resulted from strong device sales and an underlying increase in service revenue, driven by a rise in subscribers for our innovative, high quality tariff plans.

This follows a very challenging first half, during which the emergence of the COVID-19 pandemic and the subsequent lockdowns had a deeply negative impact on all economic activity across Kazakhstan.

However, in the third quarter, for the first time in recent years, we observed growth in our subscriber base quarter-on-quarter, resulting from our continued focus on the development and launch of innovative and attractive tariffs and their proactive promotion across all channels.

In particular, an increasing number of subscribers are taking our bundled tariffs offering OTT and additional VAS services. This drove in large part the underlying rise in service revenues. Service revenues, excluding off-net bulk SMS, increased by 1.9 percent. Starting from the second quarter of 2020, the Company made a strategic decision to cease the provision of subsidized, and therefore unprofitable, services such as off-net bulk SMS.

We also delivered sales growth in contract phones, which boosted the number of subscribers providing higher levels of profitability, and ARPU rose 6.3 percent. Churn also decreased as a result of our ongoing efforts over recent years to focus on improving the quality of our subscriber base as well as our shift towards contract sales, which is positively impacting the overall lifetime value of our customer base.

The lifting of quarantine and tight restrictions on offices and store operations in the third quarter also gave rise to a recovery in demand for handsets and devices, and brought a significant boost to sales, which more than doubled.

The increase was also partially driven by higher sales through online channels. It was further supported by improved inventory management processes, enabling the Company to handle and meet demand effectively, in combination with careful monitoring of prices.

Our B2B business also experienced strong growth, rising 40.3 percent excluding off-net bulk SMS, driven mainly by attractive propositions and services and demand for devices and accessories to enable connectivity, as businesses across Kazakhstan shifted to working from home. We were also pleased to support our country's education, working with the Ministry of Education on the provision of connected devices and tools to facilitate the continuation of education online. We have developed and supplied a range of packages specifically designed to facilitate home working and connectivity to suit the evolving needs of the Kazakh nation at all levels.

Overall, EBITDA showed double digit growth, driven by an improved revenue mix and product profitability, as well as thorough analysis and tight control of expenses by management, and substantial cost optimisation. EBITDA, excluding non-recurring items, increased by 12.9 percent, with the EBITDA margin of 43.8 percent.

At the end of the third quarter, Kcell reported strong free cash flow that increased by 42.8 percent for the nine-month period. This level of free cash flow means we are very well placed to move ahead with investment in infrastructure and technological improvement despite this challenging economic environment.

We are delighted to be involved in the network sharing initiative between Kazakhstan's three mobile providers to roll out highspeed internet access across rural communities, as part of the country's 250+ project. This aims to achieve highspeed internet access across all settlements with populations of 250 or more. The project calls for 3G and 4G connectivity from all three operators

across 1,000 rural settlements with a combined population of 600,000. Rural residents will be able to receive mobile services and select a service provider of their choice. In turn, each mobile operator will have equal access to the shared network.

We are also delighted to note that Kcell has commenced the integration process of its networks with Kazakhtelecom to leverage all potential synergies, whilst continuing to share best practice in ways that will further promote excellence in technology and services. As a result, Kcell continues to benefit from its partnership with Kazakhtelecom across all areas of business activity.

Having weathered two national lockdowns in Kazakhstan, we are now laser focused on maintaining the momentum delivered in the third quarter as we continue to provide crucial technology, products and services that support society and the economy whilst the impact of the pandemic continues to present challenges across all areas of activity in our country and the global economy.

Earlier this year, following the onset of COVID-19 and the subsequent impact of national lockdowns, we suspended guidance on our outlook. However, with signs of gradual stabilization of the situation in Kazakhstan, and on the basis of no unexpected events or situations that would undermine this stability, the Company is now able to provide an outlook for 2020 of high single-digit growth in both revenue and EBITDA."

The term of this loan facility is 36 months with an interest rate not exceeding 11.5 percent per annum.

Halyk Bank of Kazakhstan JSC confirmed the reduced interest rates for the KZT 42 billion open credit line:

- Interest rate of 11 percent per annum on loans up to 12 months;
- o Interest rate of 11.5 percent per annum on

Q3

loans up to 36 months (previously 13.0 percent per annum).

May

- The AGM held on 29 May 2019 approved the proposal of Kcell Board of Directors to distribute KZT 9 billion, representing 89 percent of the net income for 2019, as an annual dividend. The total dividend amount will equate to KZT 45 per ordinary share (each GDR representing one ordinary share). The record date for shareholders entitled to receive the dividends was set on 31 May 2020 (00:00 AM Almaty time).
- Other decisions adopted by the AGM include:
  - To approve Kcell JSC IFRS Separate and Consolidated Financial Statements for the year ended 31 December 2019;
  - To approve the Regulation on the Board of Directors of Kcell JSC.
- The Board of Directors approved the decision on entering into a trilateral network sharing agreement between Kcell JSC, KaR-Tel LLP and Mobile Telecom-Service LLP ("Parties"). The Agreement provides an opportunity for the Parties to commence joint construction and operation of a mobile broadband network that covers settlements with a population of 250 to 1000 people, national and regional highways and railways. Each Party will independently build and operate the mobile broadband network and will allow the other Parties to use its network infrastructure within their coverage zone on the terms and conditions set forth in the Agreement.

The construction volume of the network infrastructure will be distributed between KaR-Tel LLP and Kazakhtelecom Group of companies as follows: 35 percent – KaR-Tel LLP and 65 percent – Kazakhtelecom Group of companies.

The Agreement does not provide for the Parties' joint ownership or disposal of the network infrastructure.

The Agreement is not intended to limit competition between the Parties in wholesale or retail business and nor does it constitute a market sharing arrangement. Each Party is fully entitled to continue to carry on its wholesale and retail business as it may deem appropriate.

- Yuri Kharlamov member of the Management Board, Chief Financial Officer; term of office from 19 June 2020 until 19 June 2021.

#### September

 On 24 September 2020 the Board of Directors approved the conclusion of an additional agreement to the Term Credit Line Agreement No. KS 01-13-18 dated 24 September 2013 with Halyk Bank of Kazakhstan JSC based on the following conditions.

Interest rates for the use of newly issued bank loans:

For up to 12 months (inclusive):

- 10.7 percent per annum in the event that the cleared credit turnover is maintained at a level determined between the parties for the corresponding settlement period.
- 11.2 percent per annum in the event that the cleared credit turnovers are below the level determined between the parties for the corresponding settlement period.

For up to 36 months (inclusive):

- 11.2 percent per annum in the event that the cleared credit turnover is maintained at a level determined between the parties for the corresponding settlement period.
- 11.7 percent per annum in the event that the cleared credit turnover is below the level determined between the parties for the corresponding settlement period.

## Significant events following the end of the reporting period

#### **October**

- On 14 October 2020, an additional agreement was concluded with AB Bank of China Kazakhstan JSC to reduce the interest rate from 10.5 percent to 10.3 percent per annum.
- On 15 October 2020, the Company entered into a credit line agreement with Subsidiary JSC VTB Bank (Kazakhstan) for KZT 6 billion for a period of 36 months. The new credit line was used primarily to finance working capital, including the refinancing of debt from other banks. The interest rate is set at 10.7 percent per annum.

## Administrative, tax and legal update

In October 2018, the Committee on Regulation of Natural Monopolies, Protection of Competition and Consumer Rights of the Ministry of National Economy of the Republic of Kazakhstan ("Committee") initiated administrative proceedings against Kcell for an alleged administrative violation related to the abuse of its dominant position in 2017. The potential fine, which can be imposed by the court, constitutes approximately KZT 2 billion.

According to the Committee, the violation resulted in the establishment of different prices for Kcell's mobile Internet access service with a data allowance, when the data allowance was exceeded or the monthly subscription fee was not timely paid.

The Company did not agree with the order issued by the Committee. On 3 July 2019, the Company appealed to the Court.

The management of the Company believed that the appeal would be successful and assessed the probability of outflow of cash as possible.

On 25 October 2019, Specialised Inter-district Economic Court of Almaty issued the resolution to cancel administrative proceedings due to the lack of an offense. However, the Committee has the right to appeal within 180 days after announcement of the resolution.

On 14 April 2020, the Committee appealed the decision of Specialised Inter-district Economic Court of Almaty. On 4 May 2020, the administrative proceedings were finalized after the decision of the Supreme Court of RK to reject the Committee's appeal due to lack of offence. The decision of Supreme Court of RK (as the superior level of authority) is the final decision, that essentially is not a subject for further revision.

IFRS Financial statements for January-September 2020 will be available on the Kcell website after 15 November 2020.

The information was submitted for publication at 09:00 ALMT on 13 November 2020.

#### **Definitions**

**EBITDA:** Earnings Before Interest, Tax, Depreciation and Amortization. Equals operating income before depreciation, amortization and impairment losses and before income from associated companies.

**CAPEX:** Capital expenditures for property, plant and equipment as well as software and licenses including investments in tangible and intangible non-current assets, but excluding goodwill and fair value adjustments recognized in acquisitions, and excluding the recording of assets retirement obligations.

**IFRS 16 Leases:** introduces a comprehensive model for the identification of lease arrangements and accounting treatments for both lessors and lessees. IFRS 16 will supersede the current lease guidance including IAS 17 Leases and the related interpretations when it becomes effective.

IFRS 16 distinguishes leases and service contracts on the basis of whether an identified asset is controlled by a customer. Distinctions of operating leases (off balance sheet) and finance leases (on balance sheet) are removed for lessee accounting, and is replaced by a model where a right-of-use asset and a corresponding liability have to be recognised for all leases by lessees (i.e. all on balance sheet) except for short-term leases and leases of low value assets.

The amortization of the right-of-use asset and the accumulation of interest on a financial liability replace lease payments recognized as rental expenses in profit or loss.

#### **Forward-looking statements**

This report may contain statements concerning, among other things, Kcell's financial condition and results of operations that are forward-looking in nature. Such statements are not historical facts but, rather, represent Kcell's future expectations. Kcell believes that the expectations reflected in these forward-looking statements are based on reasonable assumptions; however, forward-looking statements involve inherent risks and uncertainties, and a number of important factors could cause actual results or outcomes to differ materially from those expressed in any forward-looking statement.

Such important factors include, but may not be limited to: Kcell's market position; growth in the telecommunications industry; and the effects of competition and other economic, business, competitive and/or regulatory factors affecting the business of Kcell and the telecommunications industry in general. Forward-looking statements speak only as of the date they were made, and, other than as required by applicable law, Kcell undertakes no obligation to update any of them in light of new information or future events.
